- 13. Change Log (Slide 85-88)

## IMPORTANT INFORMATION BEFORE YOU START

A TPN Gold Shield is awarded in **recognition of your commitment to security preparedness**, upon completion of your TPN assessment and remediation update.

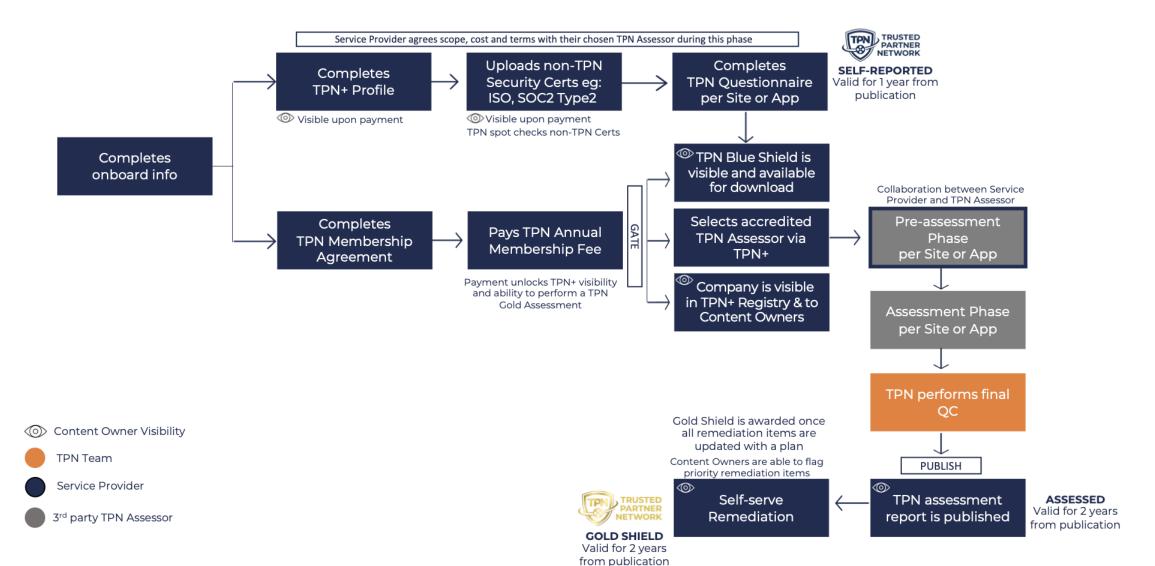

Please note that the Gold Shield is **not an approval or pass/fail status**. Each Content Owner member will use TPN as a baseline to make their own independent risk-based decisions.

It's important to recognize that the security of **services**, **sites and applications together form the complete picture of your entire environment**. The security of both sites and applications is essential to your overall security preparedness. When viewed in isolation, these elements do not provide a complete view of your security status.

TPN strongly recommends that in addition to your sites, any **in-house developed or licensed application be added to your TPN+ profile**.

If your in-house developed web application is internally or externally facing and manages the storage or transfer of content assets, we also recommend that it undergo a TPN Gold application assessment.

### **TPN+ Platform Process**

# **Content Owner Visibility**

Note: Visibility to Content Owners is enabled only after Service Provider has paid their TPN membership fee

#### **Content Owner TPN+ visibility as follows:**

- ✓ Dashboard Metrics
- ✓ Company & Application Registries
- ✓ Service Provider Profile
- ✓ Completed Self-Reported Site or App TPN Questionnaire
- ✓ Final 3<sup>rd</sup> party Assessed Site or App TPN Assessment
- ✓ Final TPN Assessment Report
- ✓ Assessor Findings
- ✓ Remediation Items & Updates
- ✓ In-platform "comments" with Service Providers & TPN

#### **Content Owner functionality:**

- √ Ability to download watermarked TPN Assessment Reports
- √ Ability to flag priority remediation items (Gold members only)

### Content Owner does not have visibility of:

- X Service Provider TPN membership tier or annual gross revenue
- X In-platform "comments" between Service Providers & Assessors
- X Uploaded evidence unless marked Public

# **User System Recommendations**

## **System Recommendations for Best User Experience**

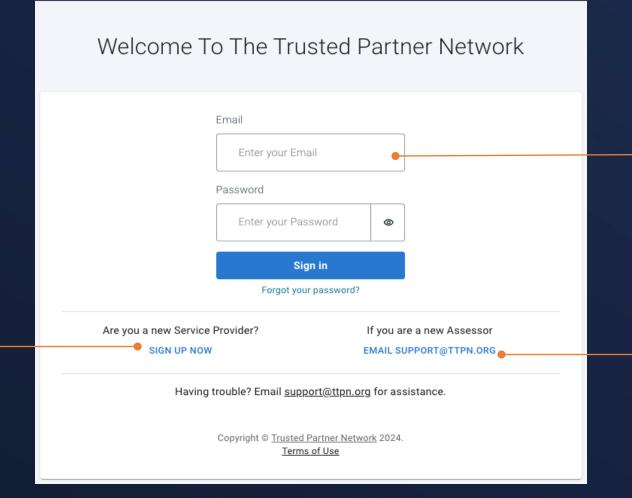

| Internet Connection:   |  |
|--|--|
| ☐ Ensure a stable internet connection.   |  |
| ☐ High speed internet required.  |  |
|  |  |
| Web Browser:   |  |
| ☐ Use a modern web browser.  |  |
| ☐ Keep the browser regularly updated to the latest version.                            |  |
| ☐ Mobile and Tablet devices are not supported at this time.                            |  |
|  |  |
| Hardware Specifications:   |  |
| ☐ CPU: Dual-core with a clock speed of 2.5 GHz or higher.                              |  |
| □ RAM: Minimum of 4 GB.  |  |
|  |  |
| System Maintenance:  |  |
| ☐ Keep the system and browser up-to-date.  |  |
| ☐ Regular updates enhance overall performance and security of the browsing experience. |  |

# **Account Signup & Creation**

## **Initial Setup / Login**

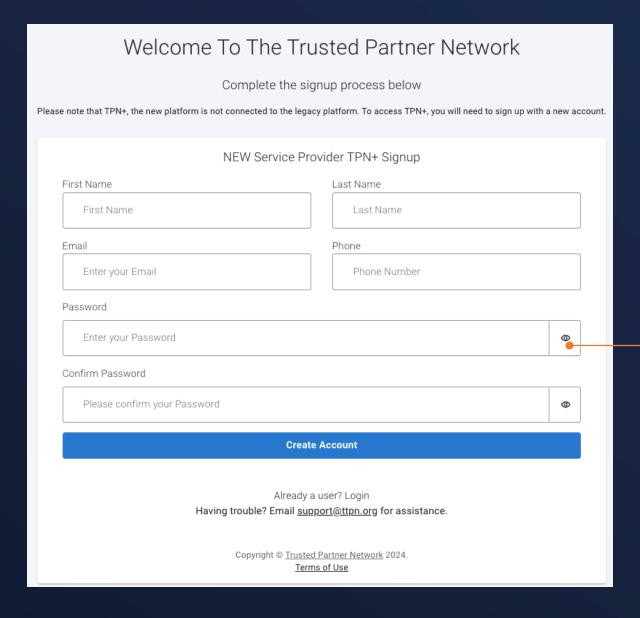

To join TPN+ as a new Service Provider, click here to create your user and company account.

As a returning user, enter your credentials and click "Sign in" to log into TPN+.

> If you are a new Assessor and would like to join TPN+ click here to email us.

### **Initial Setup / Login**

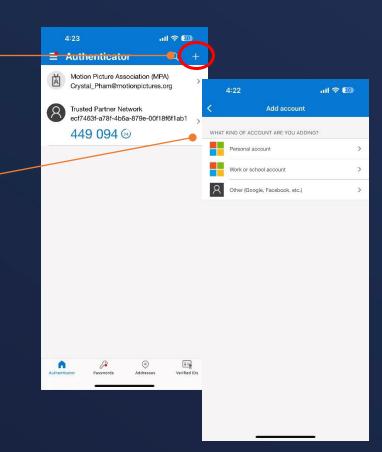

The first step in creating a new account is providing your details to create your user account

#### You must provide:

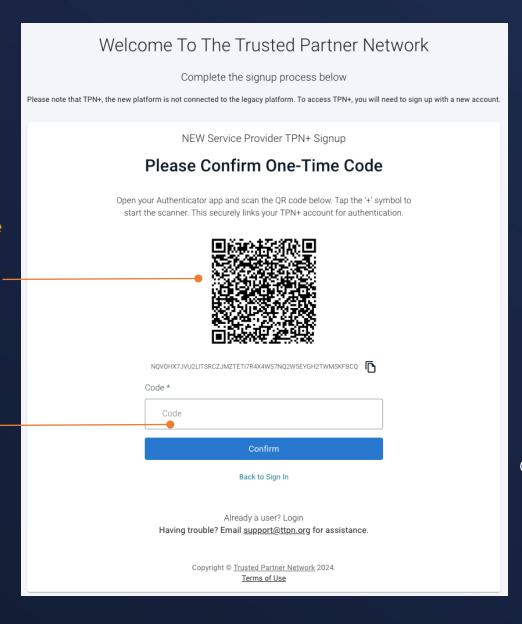

- First and Last Name
- Business e-mail address
- Phone number
- Desired password requirements:
  - Minimum of 12 characters;
  - Must contain at least 1 number, 1 special character, 1 uppercase letter, 1 lowercase letter.

- 1. Download Microsoft Authenticator via link on Slide 12 or your phone's app store
- 2. Open Application
- 3. Click "+" symbol in upper right corner
  - Select Other (Google, Facebook)
- 4. Point your camera at the QR code
- 5. Your new account should appear in your Authenticator app
- 6. Use the one-time code to sign in to the TPN+ Platform

Once you have Microsoft Authenticator installed on your smartphone, using the camera on your phone, you can scan the QR code on the screen to pair the authenticator to your TPN+ user account and receive your two-factor authentication (2FA) number.

Enter the 6-digit number that appears in your Microsoft Authenticator app and press confirm to validate your secure login session.

TPN+ requires two-factor authentication (2FA). TPN+ only supports Microsoft Authenticator for 2FA validation.

Links to Microsoft Authenticator

<u>iPhone</u>

Android

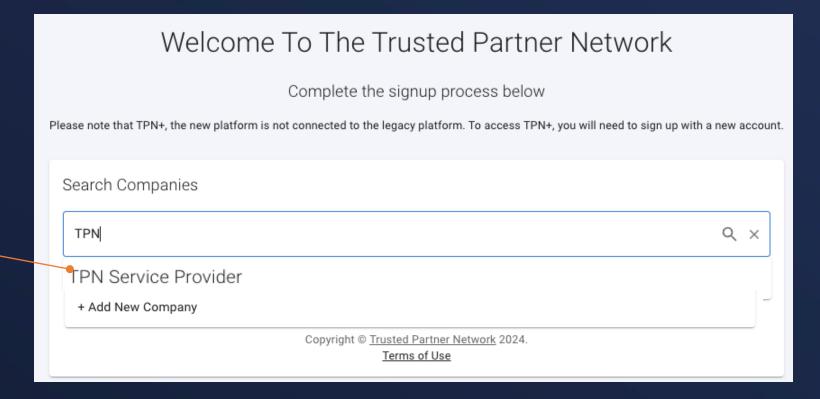

☐ Important: You will need to open the Microsoft Authenticator app on your smartphone every time you log in. You will not receive a notification or text.

### **Search Companies**

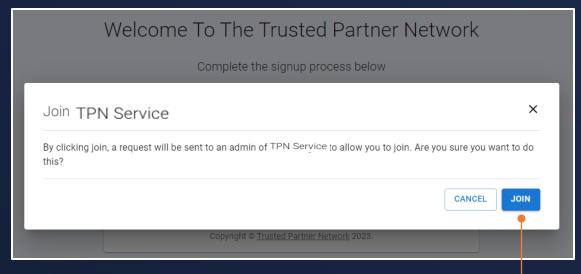

After successfully authenticating, you will be brought to this page to search for your Company.

If your Company is listed and you select it, a request will be sent to your Company's administrator to add you as a user.

If the Company doesn't exist, choose **Add New Company** and you will be taken to a screen to create the Company in the system.

## **Request Access To Existing Company**

If you find your Company, select it and click the **Join** button. The primary admin of your Company will then grant permission for you to access the system.

14

Your request has been submitted to an admin for TPN Service You will be granted access upon approval.

### **Initial Company Setup**

To create a new Company, add all requested information.

All fields with \* are required to continue.

If your billing contact and information are different from your Company information, unselecting this checkbox will provide additional fields of data to complete.

# Welcome To The Trusted Partner Network Complete the signup process below

Create a new Company AES Website Domain Billing PO Numbe VAT Number Self-Employed 1 person only with no other employees Primary Contact Address \* Address 2 Address 3 State / Province Country City Postal Code 3 Billing Contact Same as primary contact

The gross revenue selection is tied directly to the TPN Membership levels.

Please report accurately to reflect the membership level reported in the TPN membership agreement and in accordance with the terms of the agreement.

If you are a parent Company and owner of **subsidiary companies** who will have their own TPN+ Company accounts please click "**NEED SUPPORT**" in the navigation pane for TPN Admin to assist with linking the accounts.

### **Initial Company Setup**

### Membership Agreement

After you have created your Company and completed the sign-up process, you will be prompted to sign the TPN membership agreement via DocuSign and you will receive an email from DocuSign for signature.

If someone else in your organization should be the signatory you can reassign to them in the "Other Actions" menu in the top right corner of DocuSign.

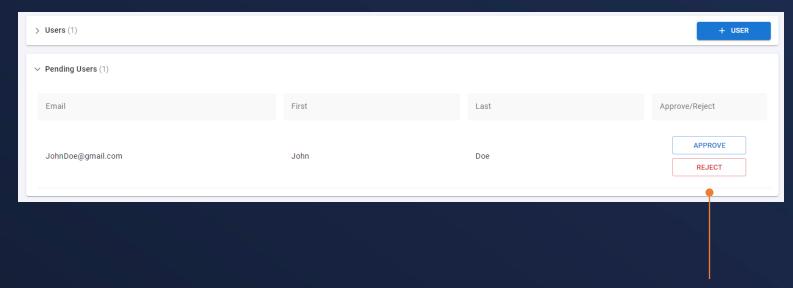

Please update the required fields and sign. TPN will then be prompted to sign, and upon completion you will receive a copy of the signed agreement via DocuSign email.

Completion of the agreement will trigger the invoice process.

# Service Provider: Adding & Managing Users

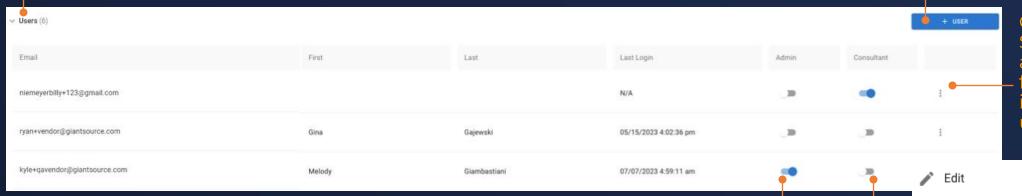

### **Granting User Access**

As your Company's user admin, you will be notified via email of any users who have requested accounts for your company.

You can **Approve** or **Reject** their requests under "Pending Users" in your company's profile, granting or denying them access to the system.

An existing list of users will display once the Users section has been expanded

Clicking the User Settings icon will display a dropdown that allows for resending the email invite or resetting the user's password

This toggle is used to enable Admin privileges for your Company's user.

Only a User Admin can enable or revoke admin privileges for other users.

All Users receive TPN+ notifications (eg: assessment published).

This toggle is used to identify a user as a Consultant.

Clicking the + **USER** button allows you to add new users

Remove

Reset

Resend Invite

Clicking the trash or pencil icons provide the ability to remove or edit the user account. If you remove a user, they can no longer access your company profile and the TPN+ platform.

## **Adding and Managing Users**

When adding a new user, and clicking the **Invite User** button, an invitation will be sent to the email address you provide on this screen. The email address will be used to register the new user and will be preassociated with your Company account.

Please note: only enter one email address at a time

### **Adding and Managing Users**

An email will then be sent to the user from membership@ttpn.org with their temporary password

Trusted Partner Network - Welcome to TPN+!

O membership@ttpn.org <membership@ttpn.org>
To: O Giambastiani, Melody

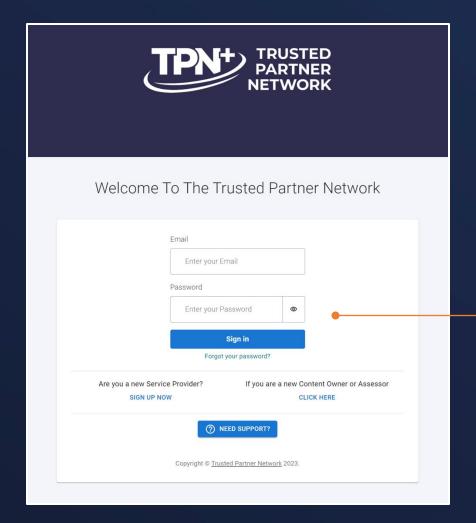

Hello,

Welcome to the Trusted Partner Network (TPN+) Platform! For your convenience, please use this LINK to the TPN+ how-to guide for more detailed instructions.

Please use the username and temporary password below to login to TPN+ HERE and set up your TPN+ Platform account.

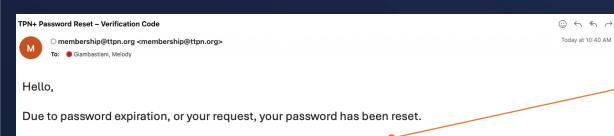

The user can then log in to the system by clicking on this hyperlink and using their temporary password

## **Adding and Managing Users**

You can now log in to the system by using your email and temporary password sent to you in the welcome email.

### **Password Management & Resetting Users**

The verification code to reset your TPN+ Platform password is: 597832. Please use this code to create a new password of your choosing. If this code has expired, please click the "resend code" link on the Reset Password screen.

Please note that password requirements are:

- Minimum of 12 characters;
- Must contain at least 1 number, 1 special character, 1 uppercase letter, 1 lowercase letter.

If you have any questions, please see the How-To Guide or contact us via this form.

Warm regards, The Trusted Partner Network Team

Website: https://ttpn.org

Note: If the temporary "verification code" from the email has expired, simply click "Resend Code" - or go to the log-in page and click "Forgot password".

If you reset your password, request for TPN to reset your password, or your password expires, you will receive an email with a temporary Verification Code.

Welcome To The Trusted Partner Network Reset Password Code \* Code New Password New Password 0 Confirm Password Confirm Password 0 Submit Are you a new Service Provider? If you are a new Assessor EMAIL SUPPORT@TTPN.ORG Having trouble? Email support@ttpn.org for assistance. Copyright @ Trusted Partner Network 2024. Terms of Use

You can log in to the system by using the code from the email. Enter a new password and Submit.

Please note that password requirements are:

- Minimum of 12 characters;
- Must contain at least 1 number, 1 special character, 1 uppercase letter, 1 lowercase letter.

After completing this screen, you will be taken to the TOTP screen where you enter the code from your Authenticator app.

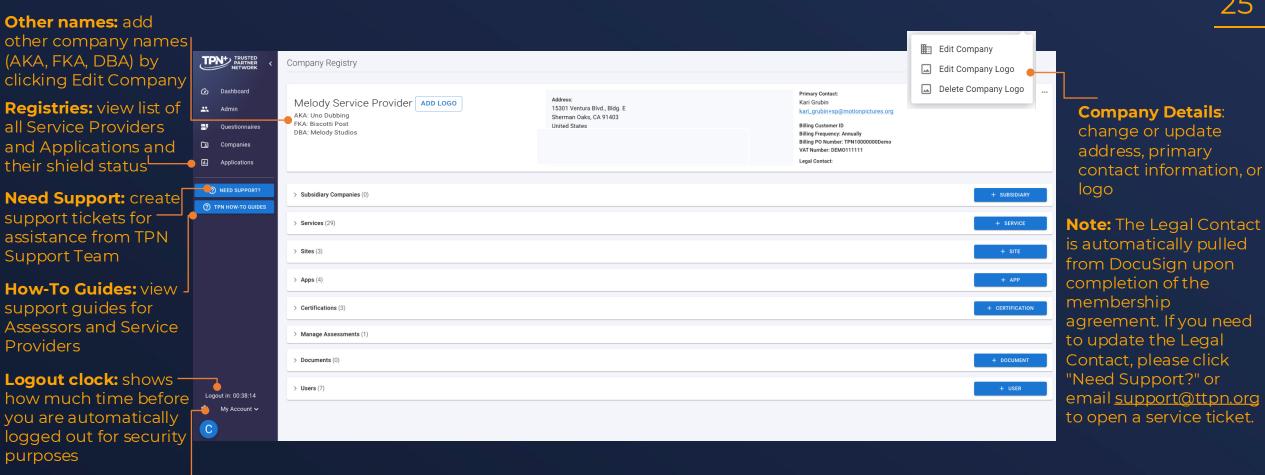

# **Service Provider: Profile Overview**

#### **Service Provider Profile**

**User Info:** change or update your individual

account details

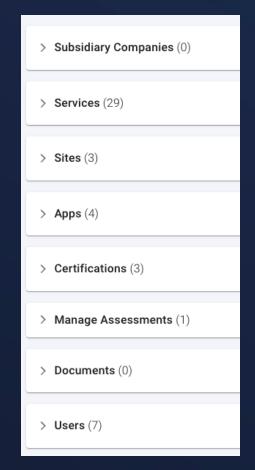

Your Profile is the landing page that upon login allows you to set up and manage your **Users** as well as update your **Company Details.** 

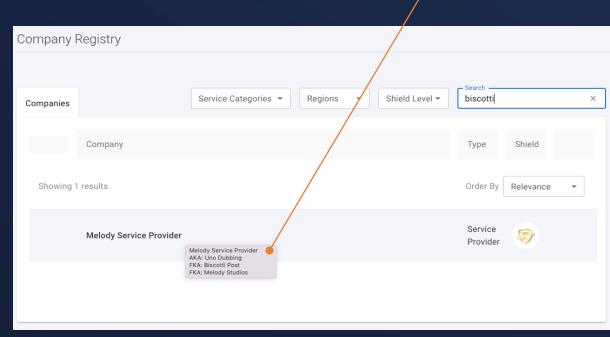

#### **Service Provider Profile Continued**

Your Profile also allows you to set up and manage your **Services, Sites, Applications, Documents, non-TPN Certifications,** and **Users** and manage ongoing **Assessments.** 

- Subsidiary Companies: Any whollyowned subsidiary companies that are listed in the parent company profile. Contact <u>support@ttpn.org</u> to add subsidiaries to your TPN membership.
- Services: Types of services provided
- Sites: Service Provider's physical locations where services are performed
- Apps: In-house developed or 3rd party application software used to provide services
- Certifications: non-TPN security certifications (ISO27001, AICPA Soc2 Type 2, CSA STAR Level 1 & 2)
- Manage Assessments: This is where you will be able to manage your TPN+ assessments
- Documents: Legacy TPN and other assessments; white papers; process maps
- **Users:** Add and manage Users

Any alternative names that you enter in Edit Company Details (previous slide) can be searched in the Company Registry. The primary name will show in the results, with all names appearing when the user hovers as shown here.

Clicking the **+ SERVICE** button allows you to add and manage which **Services** you currently provide.

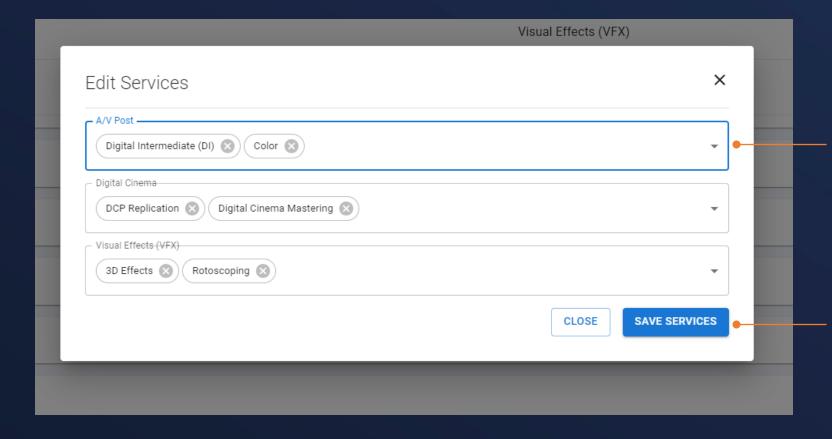

## **Adding Services**

| Edit Services              |                           | ×                            |
|----------------------------|---------------------------|------------------------------|
| ✓ A/V Post                 | Content Transfer Networks | ☐ Data Center                |
| ✓ Digital Cinema           | Film Lab                  | ☐ Home Entertainment         |
| Localization               | Marketing                 | ☐ Non-Theatrical             |
| On-Set Production          | Onboard                   | Screening Room               |
| ☐ Transportation & Storage | ☐ Video Game Services     | ✓ Visual Effects (VFX)       |
|                            |                           | CLOSE SET SERVICE CATEGORIES |
|                            |                           |                              |

Upon clicking **+ Service** a new window will appear prompting you to select one or more service categories.

After choosing the various service categories click the **Set Service Categories** button to further define more detailed services for each Service Category.

### **Adding Services**

Each of your selected high level service categories are now displayed as separate groupings. Clicking on the dropdowns will provide a list of more detailed services to add to each high-level service category.

After selecting the detailed service selections for each high-level category, click **Save Services** to return to the profile page where the selected services will now be displayed. Please note you must select at least one Service inside of each Service Category selected.

### **Adding Sites**

Important: All external facing in-house apps that are used to store and transfer content should be listed in the Applications section (see upcoming slides). These have their own Questionnaires and Assessments, separate from the Sites.

This **Action** button will change based on the different phases the Site is currently

The first step after creating the Site will be completion of a short Baseline Questionnaire. You start this by clicking the + New Questionnaire button.

The Baseline Questionnaire information will be used to filter the Best Practice questions you need to answer when you start to complete the TPN Best Practice Questionnaire. You can access the Baseline after you finish by clicking the Ouestionnaires dropdown list.

Clicking the + **SITE** button allows you to add and manage the Physical location of each site and identify which services are performed at that location.

The three display stages are:

recognition for that Site.

Non-TPN certificate if this is the only security status reported.

The Shield area of the Site listing will

populate the most advanced stage of

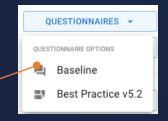

Blue TPN Shield upon completion of the self-reported TPN Best Practice questionnaire.

Gold TPN Shield upon publication of a TPN assessment by an accredited TPN Assessor and entering remediation plan(s).

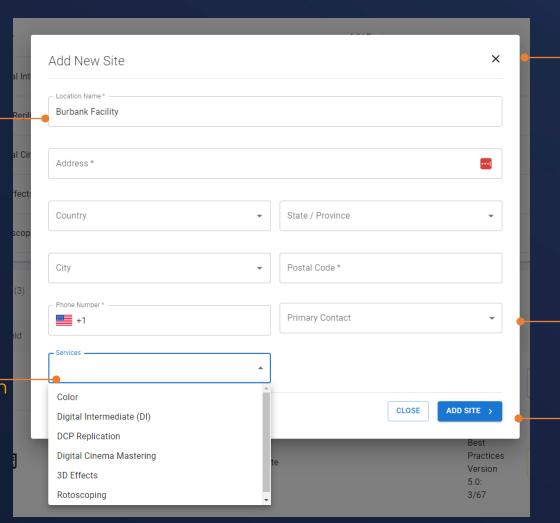

### **Adding Sites**

Location Name is where you can create a familiar name for your Site as opposed to just the address to help easily distinguish and identify.

This dropdown allows you to associate the various **Services** performed at this location. These services must already be selected in the **Services** section of the profile to appear here.

Upon clicking **+Site** you will be asked to provide information related to the location of the Site you are adding.

**Primary Contact** is selectable from a list of users invited by the administrator to the account under the **USERS** section of the company profile.

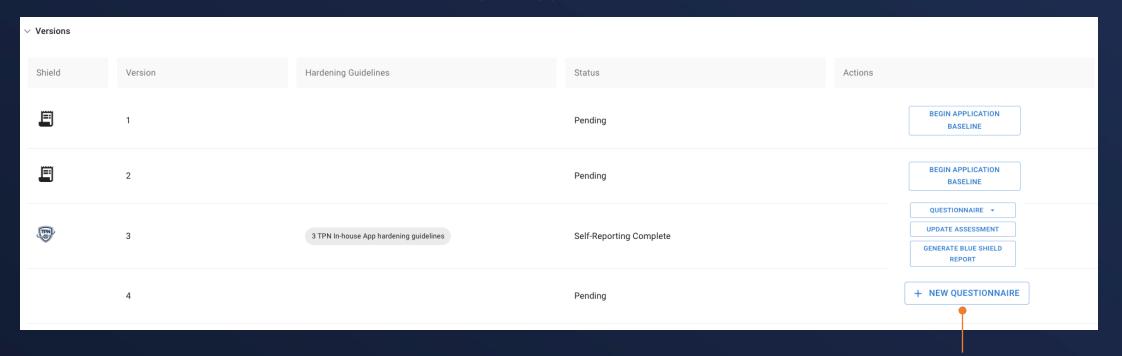

When complete, click **Add Site**.

### **Adding Applications – Overview**

The **Applications** that you add to your profile are either **In-house Developed** or **3rd Party Licensed Applications**.

Note you can only respond to the TPN Best Practice questionnaire for **In-House Developed Applications**.

| ~ | Apps (0)    |                      |         |       |          |          | +                       | АРР |
|---|-------------|----------------------|---------|-------|----------|----------|-------------------------|-----|
|   | In-house D  | eveloped Application |         |       |          |          |                         |     |
|   | Shield      | Name                 |         | Sites |          | Services |                         |     |
|   |             |                      |         |       |          |          |                         |     |
|   | 3rd Party L | icensed Application  |         |       |          |          |                         |     |
|   | Shield      | Name                 | Version | Sites | Services |          | Hardening<br>Guidelines |     |

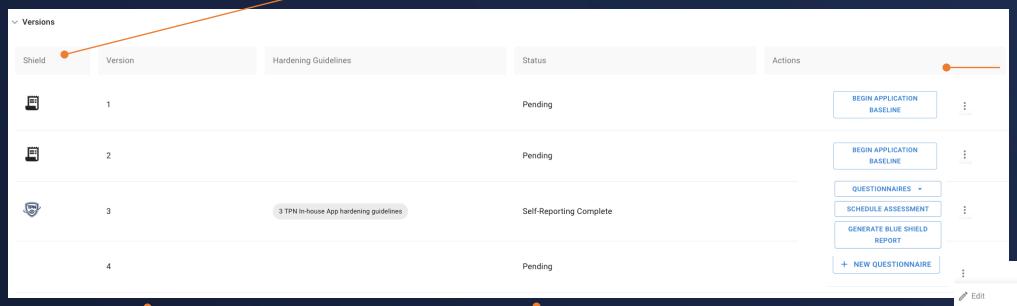

Just like Sites, the process to begin the TPN Best Practice questionnaire and Assessments follows the same workflow, by clicking + New Questionnaire.

Baseline Questionnaire can be accessed under the Questionnaires dropdown list.

### **Adding Applications – Overview**

The **Shield** column will populate the current TPN Shield status for the Application. If you have added a 3<sup>rd</sup> party Licensed Application that is a TPN member, your profile will display the associated TPN Shield status.

This **Actions** column will reflect the different actions related to the Application.

For example:
Begin Questionnaire,
Begin Site Baseline,
Continue
Questionnaire, etc.

Delete

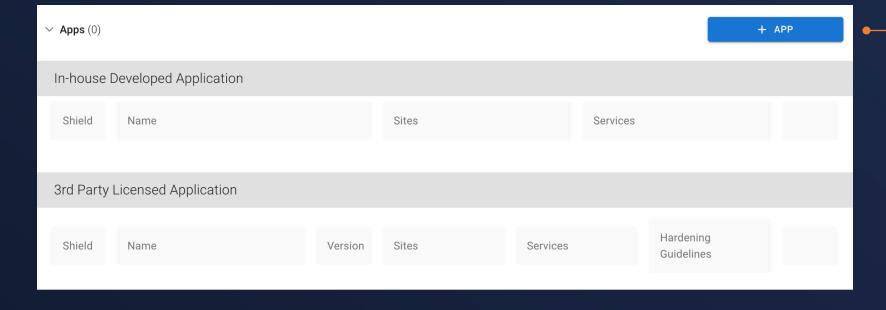

In the **Versions** drop-down, you will see the various versions of the App, one per row.

If you have uploaded Hardening Guidelines (per Version), they will be displayed in the **Hardening Guidelines** column and are downloadable by Content Owners and by the Assessor selected to perform the App Assessment. This **Status** column will change based on the different phases the Application is currently in.

If the Best Practices Questionnaire is in progress, for example, it will show how many questions have been answered.

## **Adding Applications - Overview**

You can add and manage both **In-house Developed** Applications and also **3rd-party Licensed** Applications (e.g., SaaS, PaaS, etc.) to your TPN+ Profile

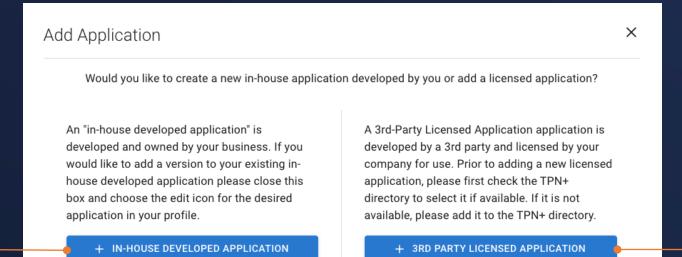

Clicking the **+ APP** button allows you to add and manage your in-house developed and 3rd-party Licensed Applications.

You can add new Applications or select preregistered Applications from the TPN+ Registry.

Both in-house and 3rd party Apps will require you to select the Application type (e.g., cloud services, transfer services etc.) and the versions that you provide or are licensing.

In-house developed apps will also indicate whether the app is licensable and/or used "as a service".

You will also identify which Service and Site is using that Application and Version if applicable. To add Applications that were developed inhouse by your Company, please click + In-House Developed Application to add it to the TPN+ registry

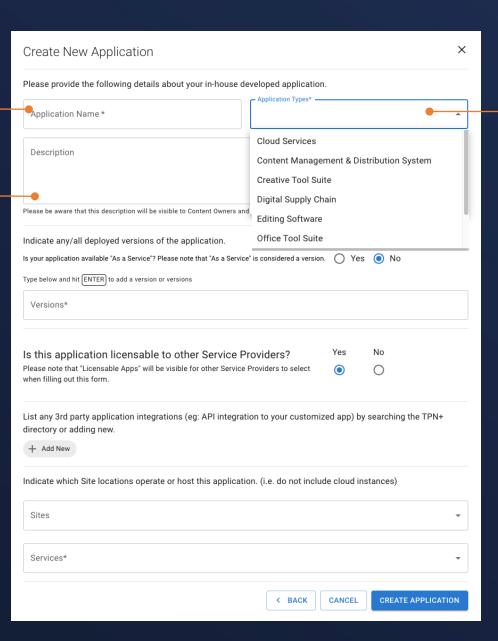

To add a licensed Application, please click + 3rd Party Licensed Application and either select the Application from the TPN+ registry, or if it is new to TPN+, please add it to the TPN+ registry.

### **Adding In-house Developed Applications**

First, provide the **Application Name**, then select from the **Application Types** dropdown.

Add a **brief description** of your Application. Please be aware that \_\_\_\_ this will be visible to Content Owners and other Service Providers if it is licensable.

Select the **Application Type** from the dropdown list. You can make multiple selections here.

If you do not see the Application Type you need, please contact support@ttpn.org.

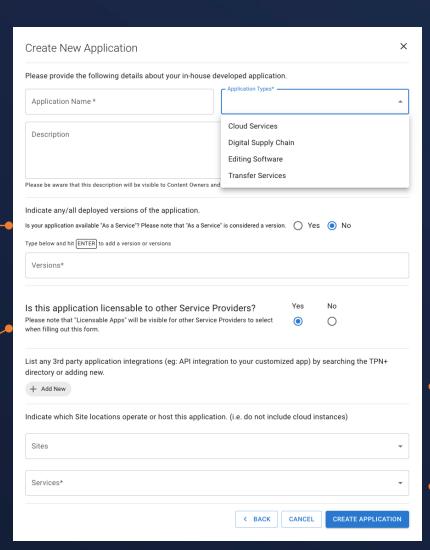

#### **Adding In-house Developed Applications**

If your Application is available as a service, click **Yes**. "As a Service" will then appear in the **Versions** list.

Please add all other available Application **Versions**.

Note that you must hit ENTER to add a version.

Click **Yes** if your Application is licensable to other Companies. Note that it will then be available to other TPN member Service Providers to select in their TPN profile as their licensed Application.

If your Application is integrated with any other 3rd-party Applications, click **Add New** and search in the TPN+ registry or add a new Application. See the next slide for instructions.

Use these dropdowns to list which of your **Sites** and **Services** use this Application.

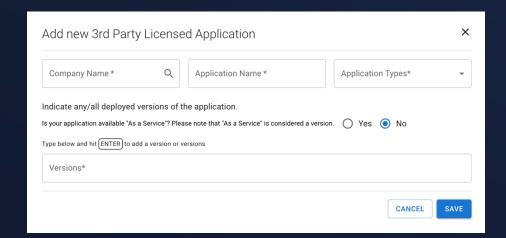

#### Adding In-house Developed Applications – 3rd Party Integrations

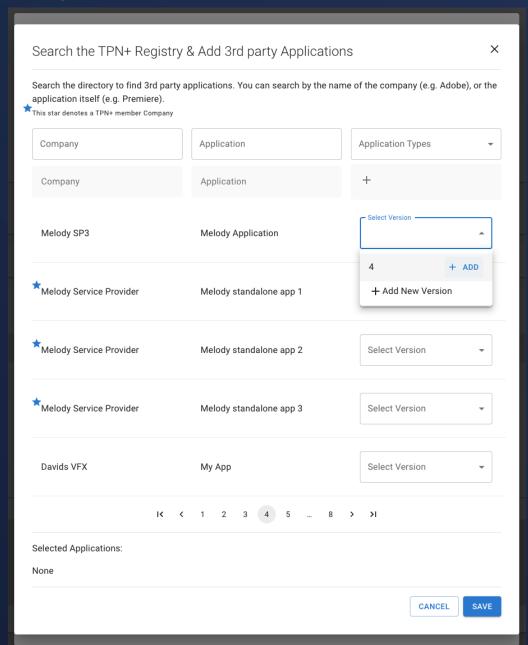

After clicking **Add New** you will search in the TPN+ registry or add a new Application.

If you are selecting your 3<sup>rd</sup> party integrated Application from the TPN+ Registry, the **Company** and **Application** boxes will assist your search of the TPN+ Registry. Once the Company and Application are selected, please **select version/s** and **save** to list in your Application profile.

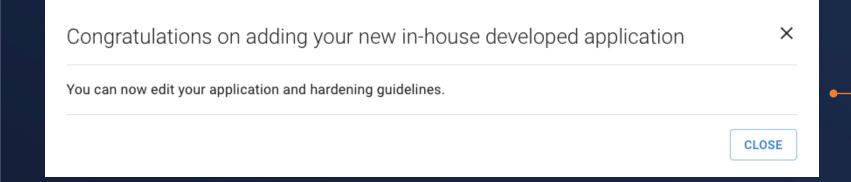

If the **version** you are using does not already exist in the TPN+ Registry, please click **+Add New Version** and TPN will contact the Application Owner to verify and add the requested version. TPN will advise you when available for your selection.

To add a new Application to the TPN+ Registry, please click **Add It To Our Directory,** add the Company and Application name and type, and Version/s and click Save. You may then select the new Application and save to your Profile.

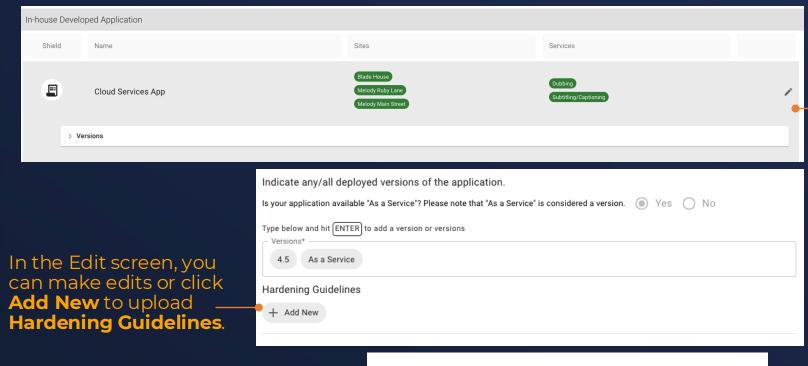

#### **Adding In-house Developed Applications**

After you have saved your In-house Developed App, you will see this confirmation message.

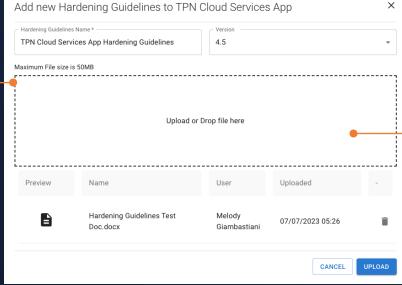

To add **Hardening Guidelines**, see next slides.

#### Adding In-house Developed Applications – Hardening Guidelines & Edits

To add Hardening
Guidelines, add a new
Version or make other
changes to your
Application, first click this
pencil icon to Edit.

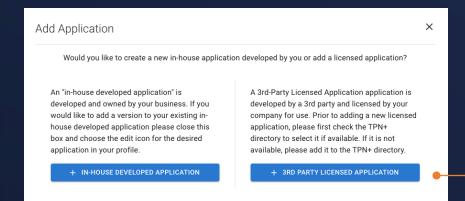

Enter the **name** and **version** of the Hardening Guidelines, upload the file by clicking to upload or drag and drop the file here.

Once the **Hardening Guidelines** file shows here, click **Upload** then **Save Application**.

Note that **Content Owners** and any **Service Provider** who has listed your licensable Application in their own TPN+ profile will be able to **download** the Hardening Guidelines

#### **Adding 3rd Party Licensed Apps**

This star denotes a TPN member Company

A blue star next to the Company name means it is a TPN Member who has either self-reported their security status or been assessed on TPN+. The TPN Blue or Gold Shield will be displayed in your TPN+ profile if you select this one of these Applications.

To add licensed

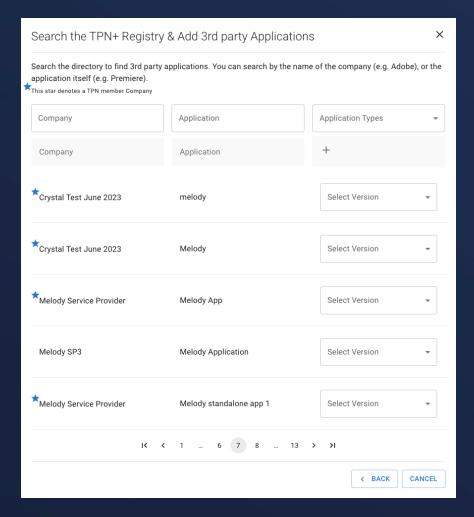

Applications, you will first search by Company,

Application and/or

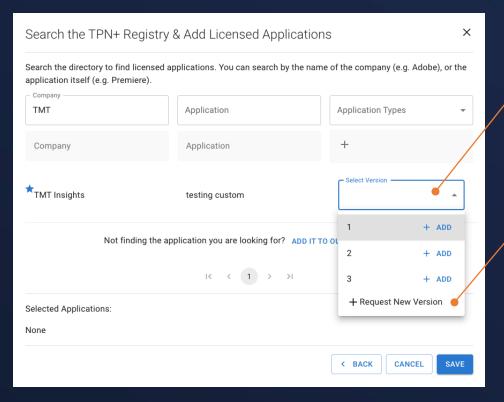

Application Types in the existing TPN+ registry.

Once located and selected, please also select the **Version** that you are using. You cannot **Save** until you have done this.

See next slide for more instructions regarding Versions.

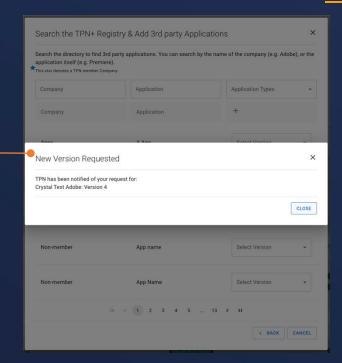

#### **Adding 3rd Party Licensed Apps**

You will select the Version of the App here or click **+Request New Version** to add a version not yet in the TPN+ registry.

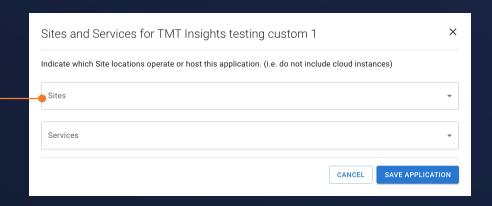

If a New Version is requested for an owned Application (with Blue Star), TPN will contact the App Owner to verify and add the requested version and will let you know when it is available for you to select.

| Request New Version  | ×       |
|--|---------|
| Please enter the version you wish to request.  |         |
| Please note that your name, email address, and company's name will be shared with the Application Own awareness. | er for  |
| 2  |         |
|  |         |
| CANCEL   | VERSION |

Use these drop downs to list where you use this App and for which Services.

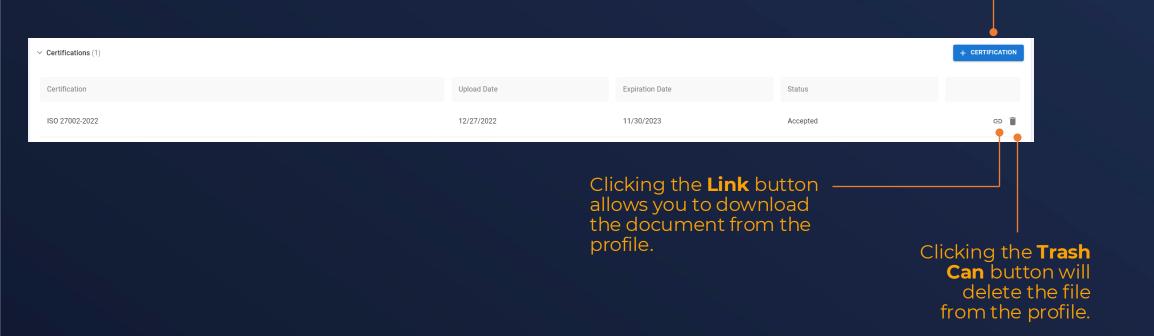

If you are adding more than one Version, you will have to repeat this for each Version. (Go back to + 3rd Party Licensed Application.)

#### **Adding Certifications**

#### **Non-TPN Certifications accepted:**

ISO 27001: 2013 & 2022, AICPA Soc2 Type 2, CSA STAR Level 1 & 2, and TPN Legacy Certificates Clicking the **+ CERTIFICATION** allows you to upload an accepted non-TPN certificate or a legacy TPN certificate by selecting the control framework from the drop-down list and linking it to the applicable previously registered Site and Application.

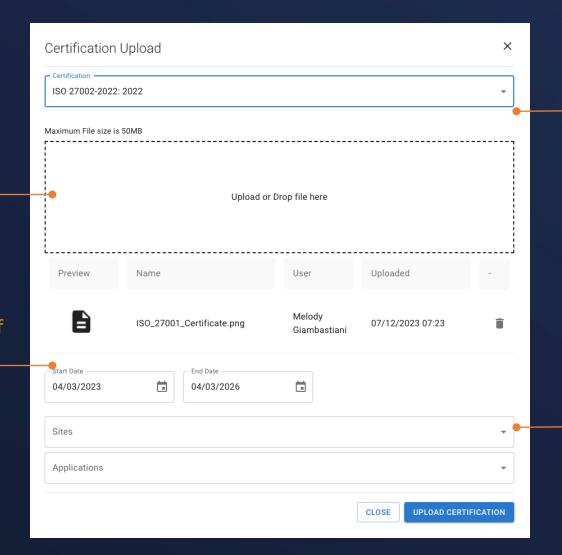

#### **Adding Certifications**

Drag the file from your computer or click on the box to bring up a file browser to find the file on your computer.

Provide the start and end date of the certificate you uploaded.

Certificates that are not valid will be rejected by TPN.

Choose from a list of accepted certifications to upload the evidence against.

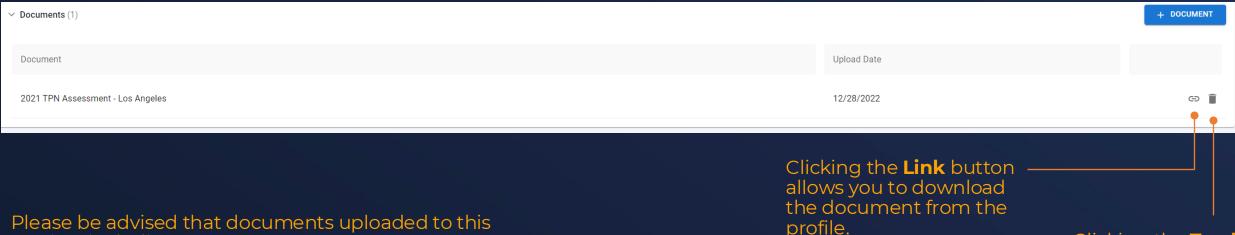

Select the list of Sites and Applications for which the uploaded certificate or TPN legacy assessment applies.

Remember those Sites and Apps must be selected in your profile prior to making this association.

#### **Adding Documents**

You may use Documents to upload your TPN legacy assessment and remediation PDFs along with any other document type that will be useful for Content Owners to understand your security status.

Clicking the **+ DOCUMENT** button allows you to upload a new document.

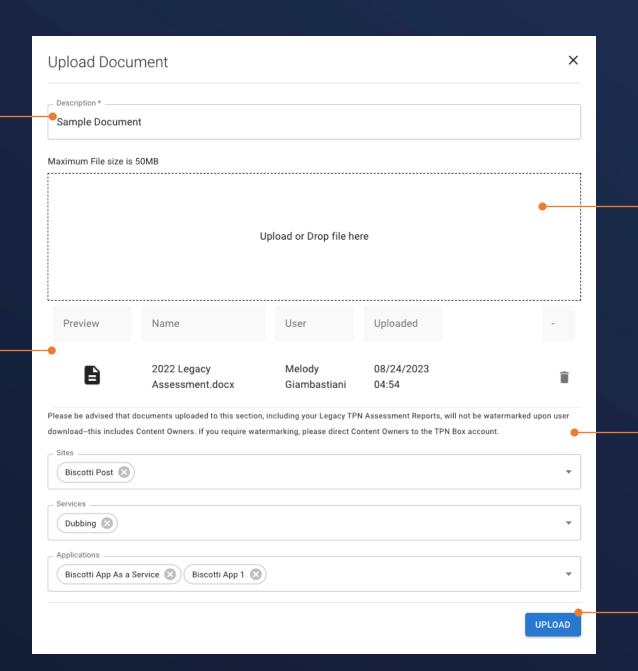

Please be advised that documents uploaded to this section, including your Legacy TPN Assessment Reports, will not be watermarked upon user download - this includes Content Owners. If you require watermarking, please direct Content Owners to the TPN Box account.

Clicking the **Trash Can** button will delete the file from the profile.

#### **Adding Documents**

Enter the name of the document to be uploaded.

A summary of the document you have prepared for upload will display here.

Drag your file from your computer or click on the box to bring up a file browser to find the file on your computer.

You can associate the document to Sites, Services, Applications as needed.

Click the upload button to begin uploading the document(s).

# Service Provider: Answering TPN Best Practices Questionnaire

Questionnaire.

#### **TPN Best Practices Process Overview**

In the top right-hand corner of the TPN Best Practice Questionnaire screen you are able to click down and see this progress list as your Site or Application moves through the TPN+ platform to Blue or Gold Shield status including remediation management.

The assigned Assessor has accepted the request

The Assessor has officially begun the assessment

TPN completed the assessment and Service Provider can enter remediation plans

Remediation plans entered and the \_ TPN Gold Shield awarded

Note that if you wish to complete the TPN Questionnaire over time, your entries will auto-save and you may return to it from your profile screen at any time.

The Questionnaire is locked and published and the **TPN Blue Shield** is awarded

The Questionnaire is unlocked for changes and discussions between Assessor and Service Provider begin.

The Assessor has submitted the final assessment to TPN for review

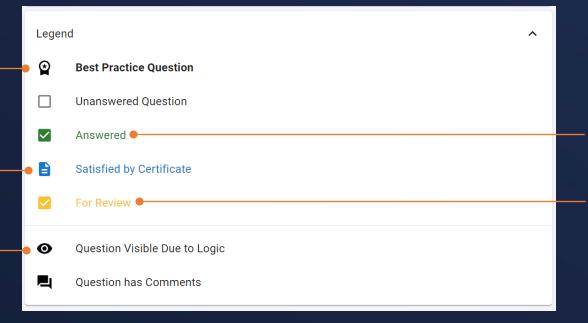

The Service Provider begins remediation on any open findings.

The following Legend items are applicable when editing or viewing your **Blue Shield Questionnaire**:

This symbol denotes a Best Practice question, all other questions are Additional Recommendations

This answer was prepopulated based on the associated non-TPN certificate you uploaded

Hovering over this icon on a question will explain why the question is being displayed

A response meets Best Practice requirements

A response does not meet the Best Practice requirements (i.e., is not Fully Implemented) and needs review by Content Owner

Tip: multiple TPN Users can answer the Questionnaire concurrently if needed

Upon completion of the Baseline
Questionnaire the profile will now show
an action button to **Begin TPN Best Practices Questionnaire.** Click this
button to start your TPN Best Practices
Questionnaire. You can click the
Questionnaires dropdown list to access
your Site/App Baseline Questionnaire.

Best Practice questions are illustrated by this icon marking the difference between questions related to Best Practices and Additional Recommendations. See definitions below.

Each question begins as a white background. As you respond the questions will change color for easy reference based on the legend.

Expand this pane to see the overall progress of your Site or Application.

This quick navigation pane allows you to explore and move around the Best Practices without needing to follow a linear order.

The Legend is always visible to identify what different colors and icons represent regarding the various states of your responses and any assessment or remediation states.

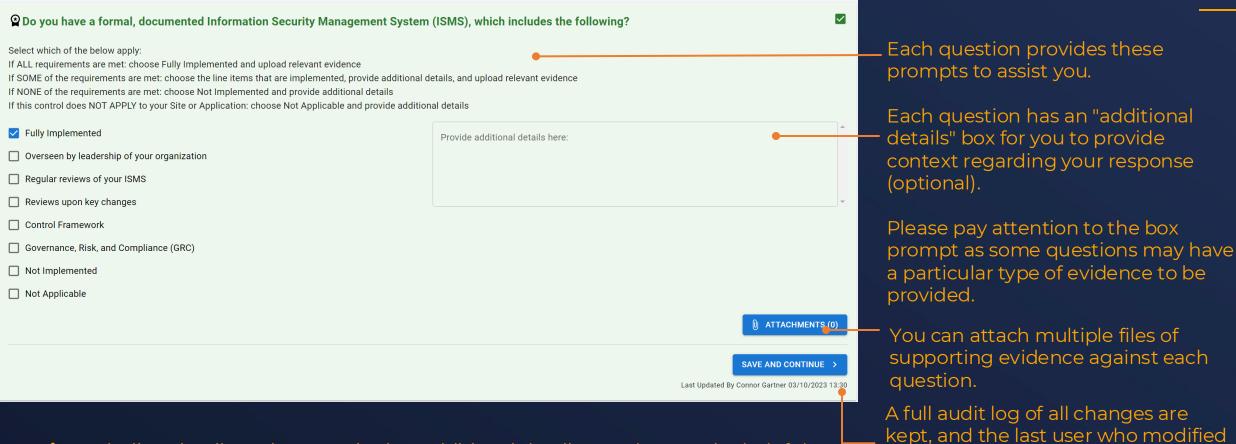

- Best Practices are minimum requirements where all components need to be fully met to fulfill the overall Best Practice.
- Additional Recommendations are supplemental recommendations for Best Practices implementation. These are not requirements.

this response will always be shown

with a time and date stamp.

#### **TPN Best Practices Questionnaire**

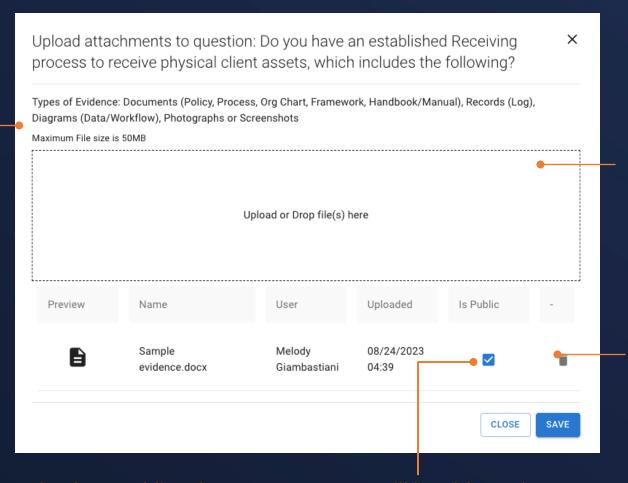

If your answers meet all the Best Practice requirements, the screen will turn green when you click **Save and Continue** to illustrate that the answer meets the Best Practices.

**Tip:** Including details and context in the "additional details" text box can be helpful to the Content Owners. If you proceed with a TPN Assessment, this info can also make for a smoother and more efficient process.

Additional details can include an explanation of what is/isn't implemented or not applicable, other compensating controls in place, what evidence is uploaded, etc.

Please take note of the acceptable types of evidence

If you check "Is Public", the Content Owner will be able to view this public evidence. <u>Only</u> the Content Owner members, the assigned TPN Assessor, and TPN can see the files marked public.

After clicking **Attachments** on the previous screen, this window will appear.

Simply drag your file from your computer or click on the box to bring up a file browser to find the file on your computer.

A summary of the evidence associated with this question you've uploaded will display here.

Note that if you've dragged or selected multiple documents to be uploaded, all files will display here.

There is a file size limit of 50MB.

Responses with a yellow screen indicate that the provided answer may need further review by the

Content Owner

Select which of the below apply: If ALL requirements are met: choose Fully Implemented and upload relevant evidence If SOME of the requirements are met: choose the line items that are implemented, provide additional details, and upload relevant evidence If NONE of the requirements are met: choose Not Implemented and provide additional details If this control does NOT APPLY to your Site or Application: choose Not Applicable and provide additional details ☐ Fully Implemented Provide additional details here: Reference established Information and Content Security frameworks e.g. MPA Best Practices, ISO 27001, NIST 800-53, SANS, CoBIT, CSA, CIS, etc Establish an independent team for Information Security, including a Governance Committee, to develop policies addressing threats, incidents, risks, etc. Organization charts and job descriptions are prepared to facilitate the designation of roles and responsibilities as it pertains to security ☐ Not Implemented ■ Not Applicable (0) ATTACHMENTS SAVE AND CONTINUE

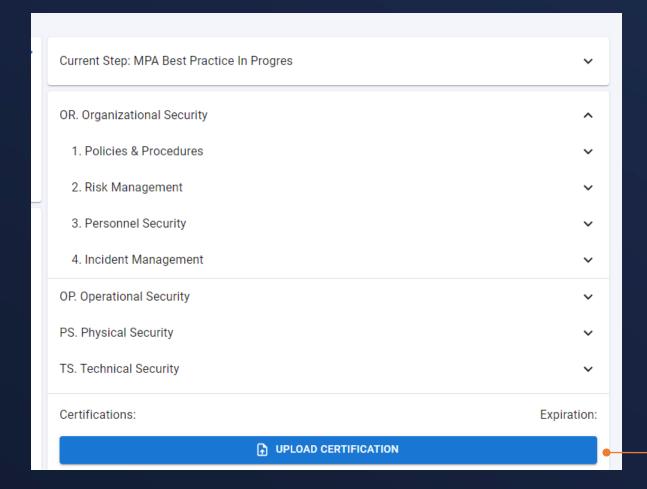

TPN+ has logic to ensure that where possible you are not asked redundant questions. The **eye icon** illustrates that you are being shown this question based on the response to a previous question.

Moving the mouse over this icon will display the reason a particular question is being asked.

Last Updated By Connor Gartner 03/10/2023 13:41

**Tip:** If you select **Not Applicable** or **Not Implemented**, automated questionnaire logic will remove subsequent questions covering that area. Please make sure that you only select Not Applicable if you are sure this is the correct indication.

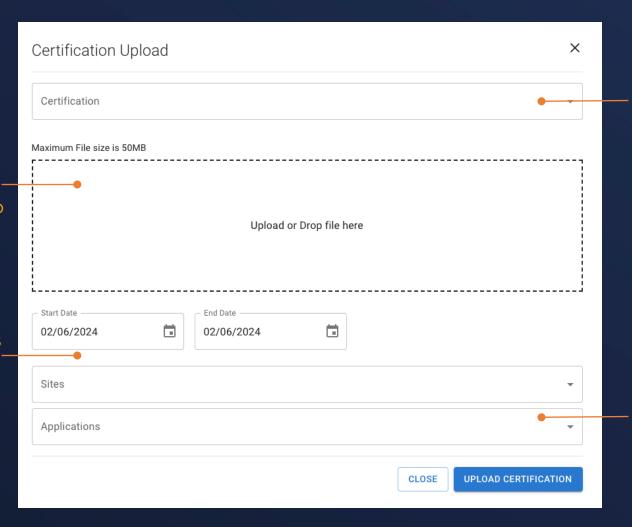

Before beginning any Site or App TPN Best Practice questionnaire, we recommend that you upload accepted non-TPN certificates if available. That way, your answers can be pre-populated in the event that your pre-existing non-TPN certificate satisfies the question.

You are able to upload non-TPN certificates in your Profile screens, and we also provide the opportunity to **upload certification** here on the TPN Best Practice questionnaire screen.

To upload a non-TPN certificate, drag the file from your computer or click on the box to bring up a file browser to find the file on your computer.

Provide the start and end dates of the certificate you uploaded.

Choose from a list of accepted certifications to upload the evidence against.

Select the list of Sites and Applications for which the uploaded certificate applies.

Remember those Sites and Apps must be selected in your profile prior to making this association.

Any answers that are mapped to an acceptable **uploaded non-TPN certificate** associated to this Site or Application questionnaire will be pre-answered and illustrated by the blue screen.

You are able to over-ride this autoanswer if you wish. However, if you are satisfied that this accurately answers the question, then no further action is required from you.

GENERATE BLUE SHIELD

REPORT

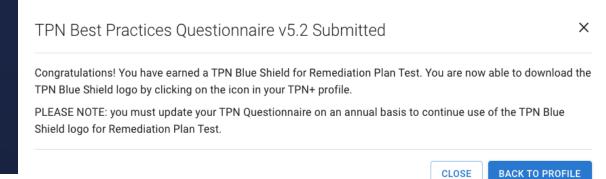

#### **TPN Best Practices Questionnaire**

TPN Self Reported: Expires 08/21/2024

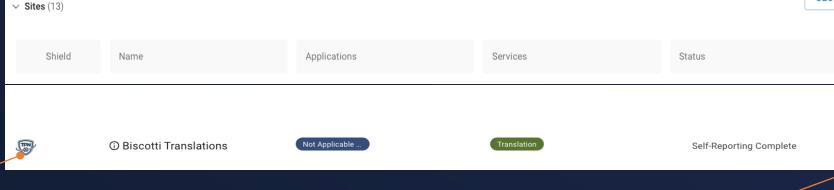

When you have completed all Best Practice questions, you will be able to **SUBMIT AND COMPLETE** to finalize your answers and earn the TPN Blue Shield for that Site or App.

Please note that once you click this button the Questionnaire locks and you cannot update your answers until an assessment process is initiated. Content Owners are also able to see your Questionnaire answers once submitted.

The TPN Blue Shield will be displayed on the profile page denoting the status of the Site.

You are now able to click on the Blue Shield icon to download a copy of the Shield for your promotional use.

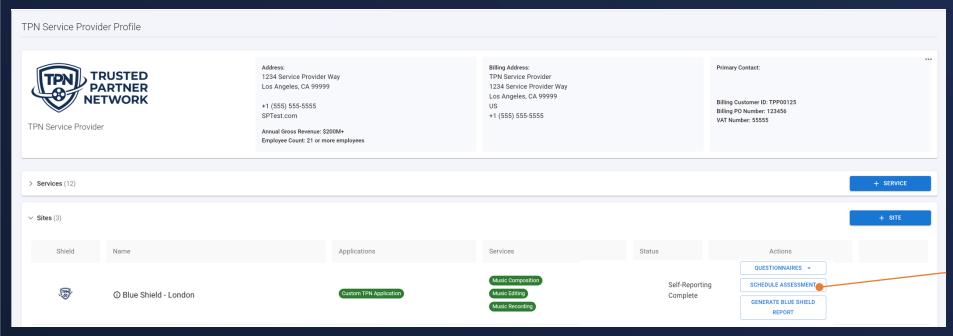

If you hover over the Blue Shield, you can see the expiration date (one year after completion).

Click to generate then download the Questionnaire answers (PDF).

DOWNLOAD BLUE SHIELD REPORT

# Service Provider: Scheduling a TPN Assessment

#### Service Provider - Site/App Assessment Scheduling

After you have completed and submitted your TPN Best Practices Questionnaire your TPN Shield status turns to Blue in your profile and you are able to download the Blue Shield logo for your promotional use by clicking on the logo and also schedule a TPN Gold Assessment.

Clicking on **Schedule Assessment** will allow you to send a request to your selected TPN accredited Assessor who will perform the assessment.

We recommend that you negotiate cost and terms directly with the 3rd party TPN accredited Assessor prior to scheduling an assessment on TPN+. Once the Assessor accepts the request, their 15-business day SLA begins.

+ NEW QUESTIONNAIRE

No new Questionnaires

You cannot add a new Questionnaire unless your current Questionnaire is expired (one year) or will expire in the next three months.

## **Service Provider: Pre-Assessment**

#### **Pre-Assessment**

View of **Assessor** profile:

Your selected **Assessor** will have access to your baseline and questionnaire answers. They must accept your assessment request in their own TPN+ profile.

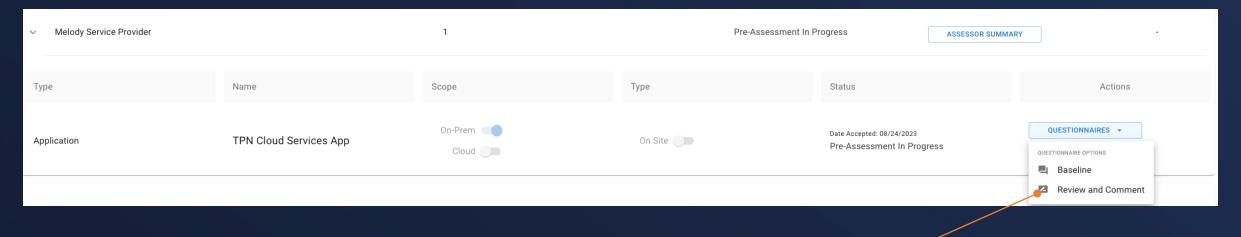

They also have an **Assessor Summary** box where they can add an overview summary and/or additional context outside of specific control findings. They can access and edit the text at any time during the assessment process. Once the assessment is complete, this will show in a new "Assessor Summary" section at the top of the PDF assessment report.

#### Manage Assessments (6) Show Completed Action Company Questionnaire Count Status Melody Service Provider Assessment In Progress ASSESSOR SUMMARY ACCEPT Melody Service Provider Assessment Assigned REJECT Name Scope Type Status QUESTIONNAIRES Site Baseline Spaceline On Site Assessment Assigned GENERATE BLUE SHIELD Cloud \_\_\_\_ REPORT

Note that once the Assessor clicks **ACCEPT** this starts the 15-business day turnaround SLA.

If the Assessor rejects your assessment request, you will be notified.

#### View of **Assessor** profile:

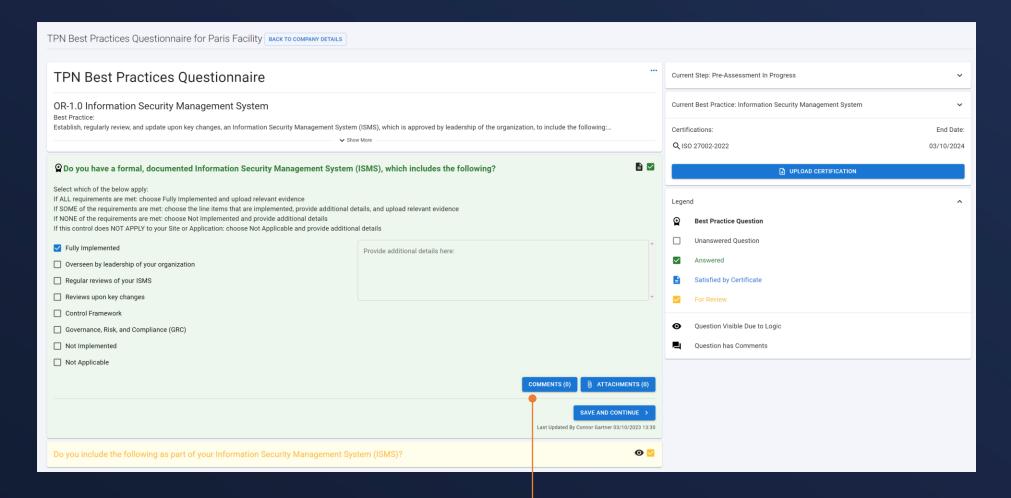

Once accepted, the **Assessor** will click **Review and Comment** to start the Pre-assessment phase where you and your selected Assessor can collaborate and review your questionnaire answers, evidence and other information such as non-TPN certs.

During the pre-assessment phase you can update your Questionnaire answers and upload evidence prior to beginning the formal assessment.

You can manage all pre-assessment and assessment activity in the **Manage Assessments** section in your profile.

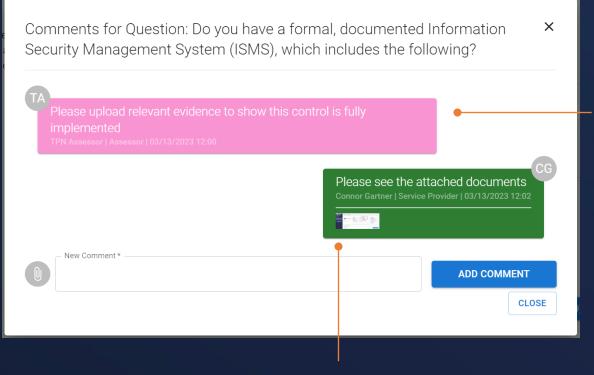

Note that the pre-assessment phase is part of the 15-business day turnaround SLA.

#### **Pre-Assessment - Commenting**

To begin or continue a dialogue with the Assessor during pre-assessment or the assessment phase, click the **Comments** button.

#### **Pre-Assessment - Commenting**

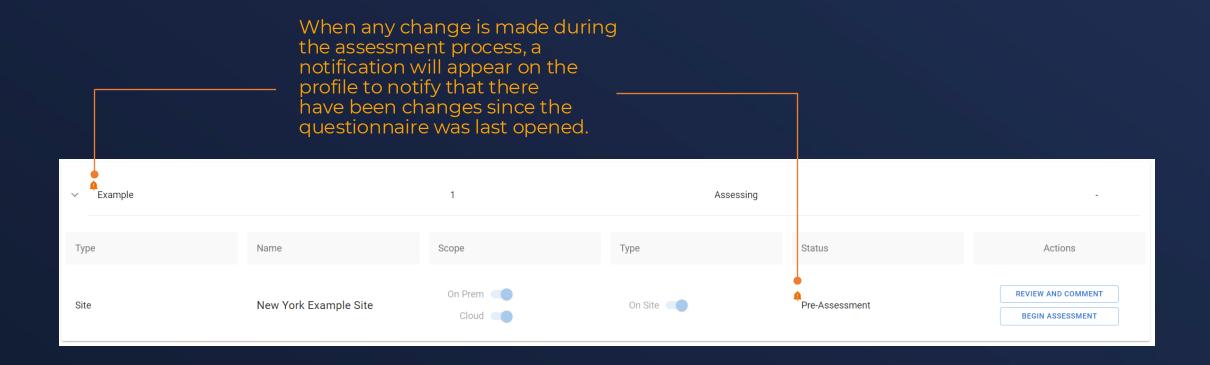

You can provide responses and upload requested documents within the **Comments** window.

During Pre-Assessment, the Assessor may contact you via the **Comments** button to request additional information.

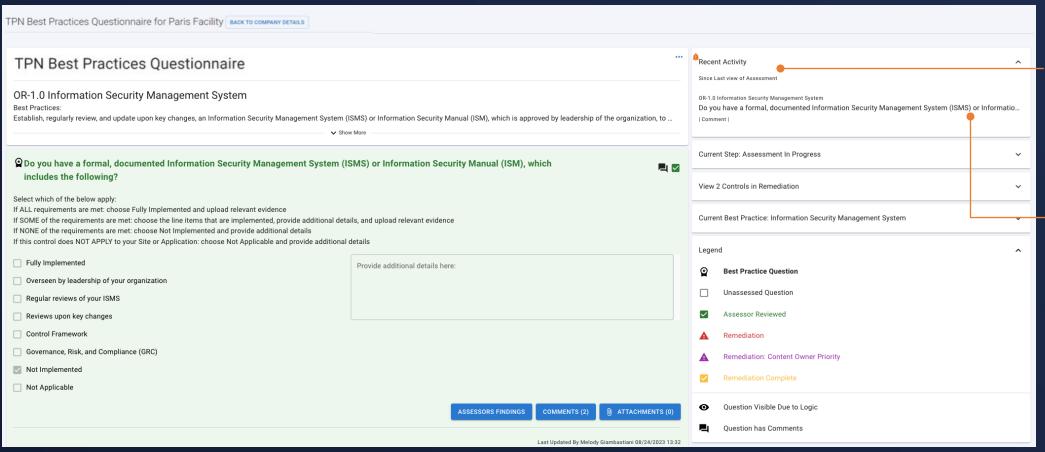

Once the full assessment phase begins, the ability to provide additional evidence or modify your responses to the best practices is no longer available.

After the assessment is completed, any remediation details and files can be added in the remediation plans.

#### **Recent Activity Notifications**

#### **Recent Activity Notifications**

The recent activity section displays a list of all questions that have updated information since the questionnaire was last opened.

Under each question will be a list of items that have changed so you can easily identify what to look for when reviewing.

### **Service Provider: Assessment**

#### **Service Provider - Assessment**

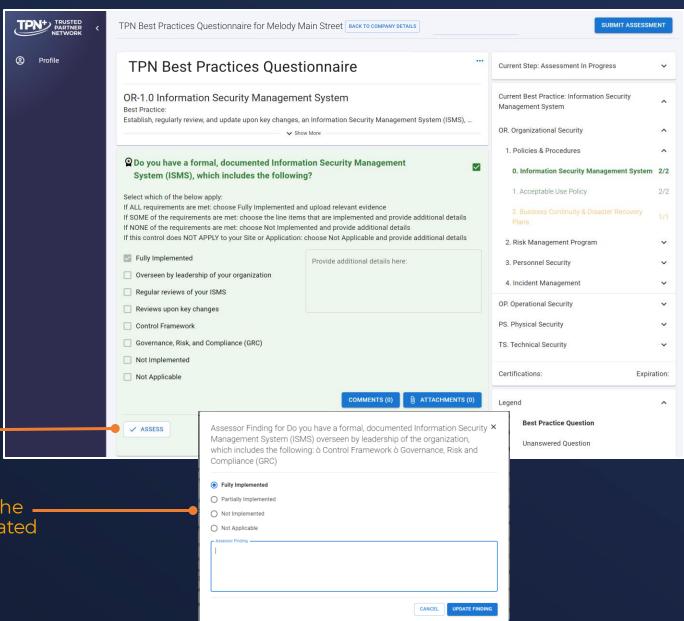

After the Assessor completes Pre-Assessment and moves to the **Assessment** phase, you are no longer able to update your answers or upload any documentation.

You are able to continue communicating with the Assessor through the Comments function if needed.

After the assessment is completed, any remediation details and files can be added in the remediation plans.

The Assessor will click the Assess Button to open the Assessor Findings Window.

The **Assessor** will select the appropriate response related to the Site or Application being assessed and add Finding comments.

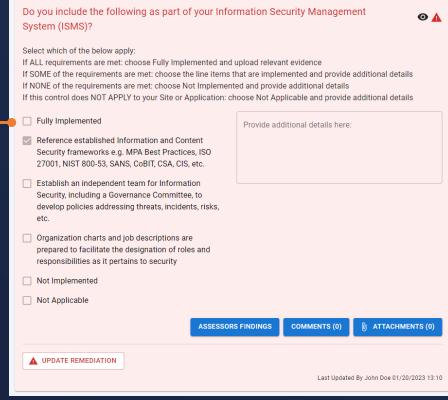

#### **Service Provider - Assessment**

The Assessor will complete the selections for Best Practice and Additional Recommendations as follows:

When **Fully Implemented** is selected no additional info is required and the answer will be marked green. Assessor will include findings on how their response was validated and what evidence was observed to validate

When **Partially** or **Not Implemented** is selected, and findings are provided in the comment box the Questionnaire answer will be marked red for Remediation. Compensating controls should also be included in the comment box as applicable

If **Not Applicable** was selected by you and the Assessor disagrees, they will select **Not Implemented,** add comments and the answer will be marked red for Remediation Selections reflect

STATUS PDF

The TPN Gold Shield recognizes your commitment to security preparedness. It is not an approval or pass/fail status.

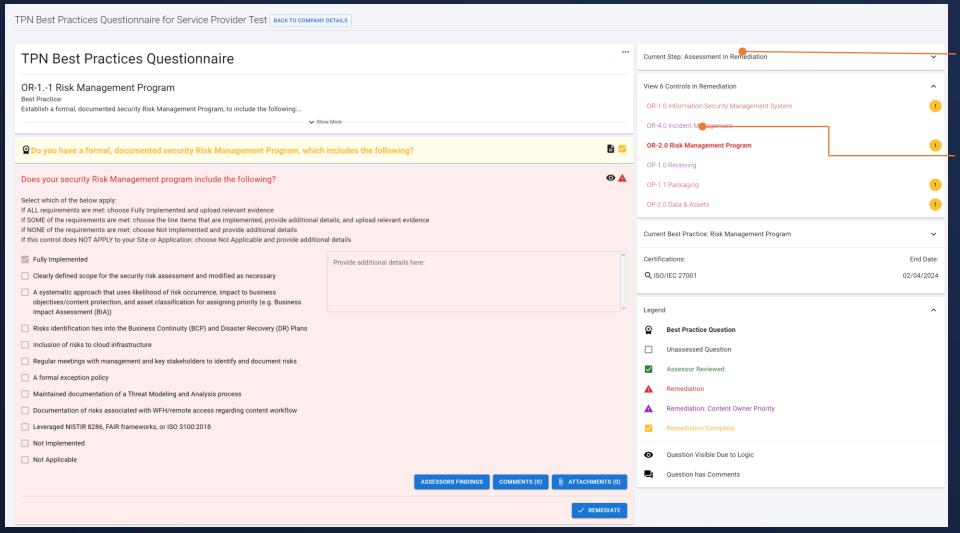

# Service Provider: Remediation Management

In your TPN+ Profile, these symbols indicate the **number** of remediation items that need your attention. **Red** represents **Best Practice** items and **Yellow** represents **Additional Recommendations** items that are unresolved.

Click **REMEDIATE** from the **Questionnaires** dropdown in the profile row or the side panel to address remediation items. Once all remediation plans have been entered, this dropdown option will revert to the Best Practices Questionnaire.

Using this navigation bar gives a quick reference to all the items that are marked for remediation

Items marked as a priority from Content Owners will be denoted by the purple color.

Only items marked as
"remediated" are closed and
removed from the sidebar.
This change allows Service
Providers who plan to
remediate later or have
selected "will not remediate"
to view their items as needed
- and allows Content Owners
to see what isn't implemented
(for their independent riskbased decisions). This does
not prevent the Service
Provider from obtaining the
Gold Shield.

Content Owners can mark remediation findings as a priority.

When they are denoted as a priority, those remediation questions turn purple to be easily identified

When ready to respond to a remediation, click this button.

You will be required to provide an update using one of the three selections on this screen.

Will not Remediate requires comments to be added.

Will Remediate Later requires a target date by which the finding will be remediated, and comments outlining the plan.

Please note that following the assessment completion date, you are strongly encouraged to either remediate or provide a remediation plan within 3 business days. Gold Shields will NOT be awarded unless a remediation plan has been completed for the site or application being assessed.

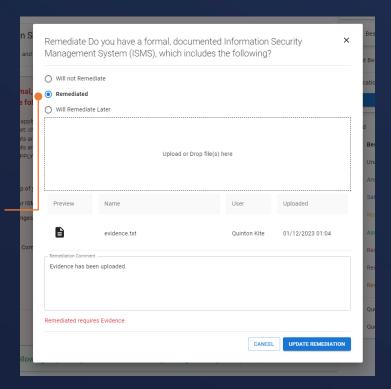

When either of these options are chosen, the question will turn **yellow** to indicate that the Remediation plan for this item is complete.

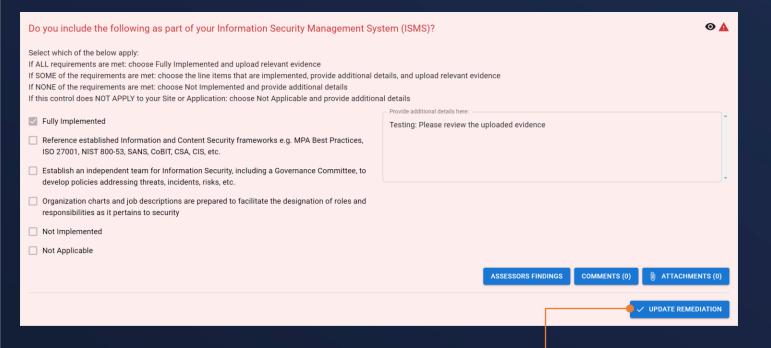

| ② Do you have a formal, documented Information Security Management System (ISMS), which includes the following?   |                                  |                 |  |  |  |  |  |

When **Remediated** is chosen you will be provided areas for more information to be added.

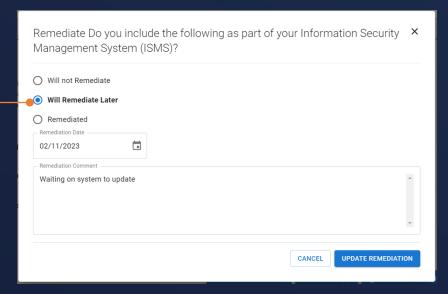

We recommend that you use TPN+ to share evidence of remediation.

Please use the comment box to describe the intended plan to remediate, or the actual action taken.

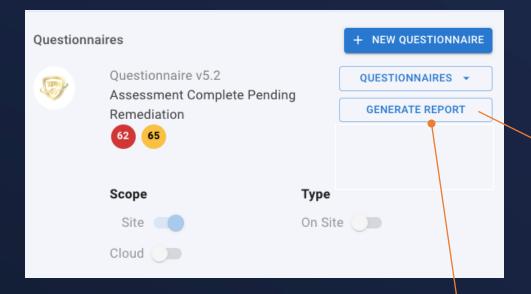

When choosing **Will Remediate Later**, the remediation stays
marked as red as it has not been
completed. The button changes to **Update Remediation**.

# Service Provider: Generating a Report

Once the assessment has been completed, you can click the **Generate Report** button in the profile row or the side panel to create the **TPN Assessment report**. It is provided as a visually watermarked PDF containing the username/email and date of the download.

TPN Gold Assessment: Melody Service Provider August 29 2023

# OR: Organizational Security - Policies & Procedures 1.0 Information Security Management System

#### Best Practice

Establish, regularly review, and update upon key changes, an Information Security Management System (ISMS) or Information Security Manual (ISM), which is approved by leadership of the organization to include the following:

- · Control framework
- · Governance, Risk, and Compliance (GRC)

#### Additional Recommendations:

- Reference established Information and Content Security frameworks (e.g., MPA Best Practices, ISO 27001, NIST 800-53, SANS, CoBIT, CSA, CIS, etc.)
- Establish an independent team for Information Security, including a Governance Committee, to develop policies addressing threats, incidents, risks, etc.
- Prepare organization charts and job descriptions to facilitate the designation of roles and responsibilities as it pertains to security

#### Additional Recommendations

Do you include the following as part of your Information Security Management System (ISMS) or Information Security Manual (ISM)?

Select which of the below apply:

If ALL requirements are met: choose Fully Implemented and upload relevant evidence If SOME of the requirements are met: choose the line items that are implemented, provide additional details, and upload relevant evidence

If NONE of the requirements are met: choose Not Implemented and provide additional details If this control does NOT APPLY to your Site or Application: choose Not Applicable and provide additional details

- x Fully Implemented
- V Reference established Information and Content Security frameworks (e.g., MPA Best Practices, ISO 27001, NIST 800-53, SANS, CoBIT, CSA, CIS, etc.)
- Establish an independent team for Information Security, including a Governance Committee, to develop policies addressing threats, incidents, risks, etc.
- x Organization charts and job descriptions are prepared to facilitate the designation of roles and responsibilities as it pertains to security
- x Not Implemented
- x Not Applicable

Service Provider Comment: Working to incorporate org charts into this process

#### Partially Implemented

#### Assessor Finding:

Agreed, org charts will need to be implemented.

Per the ISMS process documentation provided during the assessment, the other controls meet MPA Best Practices.

3 of 22

### Implementation Guidance

#### Do your Background Screening policy and process include the following?

Select which of the below apply:

If ALL requirements are met: choose Fully Implemented and upload relevant evidence
If SOME of the requirements are met: choose the line items that are implemented, provide
additional details, and upload relevant evidence

If NONE of the requirements are met: choose Not Implemented and provide additional details If this control does NOT APPLY to your Site or Application: choose Not Applicable and provide additional details

- x Fully Implemented
- x Applied to freelancers and temporary workers
- x Use of an accredited background screening company
- √ Not Implemented
- x Not Applicable

#### Not Implemented

#### Assessor Finding:

Background Screening Policy at includes -

1.As informed by HR Head, as on date of Assessment there are no freelancers and temporary workers associated with for content related processes.

2.As understood, does not utilise services of a third-party background screening company. Background checks are performed internally by HR Team Lead by contacting the reference and immediate previous employer.

#### Service Provider Remediation Plan:

- Remediation Plan: Will not Remediate
- Remediation Comment: does not have any freelancers and temporary workers for content related processes. Hence, control related to freelancers and temporary workers is not applicable to .

Management has accepted the risk associated with not availing of the services of a thirdparty background screening company. Background checks are performed internally by HR Team I ead

# **Change Log**

### TPN+ v1.1.0 Updates 07/13/2023:

- Process maps updated
- Important note regarding Microsoft Authenticator
- User management now includes Consultant toggle option
- Updated App Flow
- Tip about adding details in Questionnaire
- Tip about Not Applicable selection

### TPN+ v1.1.0 Updates 08/30/2023:

- Instances of "Implementation Guidance" updated to "Additional Recommendations"
- Note regarding Users receiving notifications
- Note regarding Legal Contact changes
- Note regarding associating Documents to Sites/Services/Applications
- Note regarding making evidence files public to Content Owner or private
- Note regarding Assessment Company search

# **Change Log (continued)**

### TPN+ v1.1.1 Updates 02/06/2024:

- Gold Shield awarded after remediation plans entered
- Note about changing Legal Contact
- +New Questionnaire button, Multi-Questionnaire, Side Panel
- Note regarding "For Review" items
- Best Practice and Additional Recommendations definitions
- Additional details
- New badge hover function
- Note about bundle assessments
- Viewing assessment details in side panel

# **Change Log (continued)**

### TPN+ v1.1.2 Updates 06/07/2024:

- Updated signup images
- Removing users
- Resetting users
- Logout clock explanation
- Note regarding evidence marked "public"
- Download TPN Best Practices Questionnaire answers
- Assessment request updates
- Note regarding updates for remediation items
- Remediated items still listed for visibility
- Assessment report sample with remediation plan

### TPN+ v1.1.3 Updates 08/20/2024:

- Important intro
- Password management
- Company profile screens
- Baseline questionnaire access
- Assessor screens (new Assessor Summary)

# **Change Log (continued)**

## TPN+ v1.1.4 Updates 09/05/2024:
